damage claim must be made by purchaser to the common carrier.

CYMBIDIUM ORCHID PLANTS

For the amateur as well as the professional, there is no finer flower, lasting for months as a cut flower, and none so easy to grow as the Cymbidium. We have grown these Orchids over a period of years under the following conditions: In Southern California we grow Cymbidiums out of doors under lath or tree shade, however, some of our friends grow them under glass, either one just so long as they have a good circulation of air but no direct wind. Cymbidium do well planted in raised beds or grown in pots. Plant high so the base of the pseudo bulbs are at surface level, mulch with leaf mold to keep the compost on the acid side. Cymbidium must have good drainage. We use a potting soil of 2 parts leaf mold, 1 part top soil and 1 part pea gravel or decomposed granite. Use plenty of broken pots or coarse gravel in the bottom of the pot.

We endeavor to keep the following in stock at all times, as we consider these plants essential in every collection. They are all free bloomers and strong growers. These plants are plant divisions from plants that have bloomed and should bloom again in the next blooming season. In some cases there are smaller divisions, consequently we have given you a choice of size of plant and price; in some cases we have only a back bulb for sale, as prices indicate.

Cymbidium back bulbs are removed from adult plants. These bulbs sprout and form new plants, reproducing the identical flowers of the adult plant. All bulbs are strong and healthy and should do well if growing instructions are followed. Whenever possible we ship sprouted bulbs.

Colors herein stated are general. We make no guarantee other than that our plants are healthy and vigorous.

CYPRIPEDIUM ORCHID PLANTS

CYPRIPEDIUM: (Lady Slipper Orchid) This beautiful waxy flower has a pouch that has given it the name of Lady Slipper Orchid. These lovely evergreen plants can be grown outdoors in a warm climate where the temperature does not drop below freezing, or may be grown as house plants. The flowers are many-colored: green, yellow, brown, deep tones of red and purple and a few rare whites. The flower will last on the plant for months in perfect condition.

RARE PLANT LIST

In our gardens we grow many rare and unusual plants. In the majority these are shade plants that grow out of doors in California where the temperature usually stays above freezing. These plants are also excellent house plants, grown in pots, baskets or planters. The demand has been so great from our visitors that we have found it necessary to propagate, and offer you the following established plants:-

IVY: We consider IVY a necessary plant -hardy, will grow in full sun or shade and needs no special soil. Ivy makes fine ground cover, will trellis or trail, does well in an indoor planter. Make dish-washing a pleasure by trailing them around your kitchen window.

CALIFORNIA SELF-BRANCHING IVY: a very good small leaf variety, always has two shades of green growth, the new growth is a bright light green and the older growth deep velvety green color -15¢ ea.

HAHN'S SELF-BRANCHING IVY: A very good grower in deep green, the leaf is like a small maple leaf ..... 15¢ ea.

FAN SELF-BRANCHING IVY: THIS IS NEW AND RARE. The leaves are small fans, fine grower, the ribs are light green, rest of leaf is a beautiful soft green - most attractive ..... 25¢ ea.

GLACIER IVY: Very new and spectacular, a miniature variety of white and green, wonderful for dish gardens or small planters, attracts attention anywhere ..... 35¢ ea.

CALIFORNIA GOLD LEAF IVY: a fine miniature with variegated gold leaves ..... 50¢ ea.

ONE EACH OF THESE IVIES (5 plants).....\$1.00

GERANIUM: Everyone enjoys a good geranium. We are very proud to offer the following specimens adapted to sun or shade, and given ordinary care will bloom all year.

PEPPERMINT: A real candy-striped ivy geranium, grows fine in pots, will climb, makes lovely hanging baskets -spectacular. 75¢ ea.

MOUNT BLANC: Snow white upright type geranium with big flowers and velvety green leaves, very fine .....\$1.25 ea.

ONE EACH OF THESE GERANIUM (2 plants).....\$1.75

HAEMANTHUS PUNICIUS: (Evergreen South African Herb Plant) for foliage, we consider the Haemanthus one of the best, an interesting tulip-like bloom in the spring that develops clusters of green berries the size of a pea, turning brilliant red at Christmas time, will grow in any soil and likes extreme shade, no direct sun. \$2.00 ea.

HOYA: If you haven't seen the Hoya vine in bloom, you have missed a most unusual bloom. The flowers look as though they were carved out of ivory, blooming in an umbel, each little flower a symphony of delight - the leaves are fleshy and waxy. Grow in shade, requiring an acid soil.

HOYA CARNOSA: Solid green leaf, pink flower ..... 75¢ ea.

HOYA VARIEGATED: A beautiful white & green leaf, lovely pink flower .....\$1.25 ea.

HOYA ALBA: A very rare and unusual white flower, foliage dark green, somewhat broader .....\$2.50 ea.

ONE EACH OF THESE HOYA'S (3 plants).....\$4.00

PHILODENDRON: A popular house plant -will climb if given support - easy to grow, lovely foliage.

PHILODENDRON CORDATUM: Heart-shaped leaves..... 35¢ ea. 3 plants for \$1.00

PHILODENDRON PETUSUM: Also known as MONSTERA, very large, irregular leaf, big grower .....\$5.00 ea.

EPIPHYLLUM: (Orchid Cactus) A most interesting plant. The flower forms on the leaf, often measuring 10" across. Blooms in the spring in many colors, white, pink, orange, red and red purple. We plant them in our Cymbidium compost. We offer the following of our own that are as yet unnamed:

#2	Many-petalled lilac pink .....	\$1.50
#3	large cup-shaped rich red, violet throat .....	1.50
#5	very good Christmas red .....	1.50
#6	apricot - cup-shaped - free bloomer, makes good basket	1.50
#8	large silver shrimp pink, good texture .....	2.00
#10	small cup-shaped flower, profuse bloomer, often blooms in spring and fall - silver pink .....	1.00
#11	rose beige -fragrant, rare, limited number .....	5.00
#12	rose lavender - double .....	2.00
#14	Poinsettia crossed by self -large flower, flat poinsettia color very good, often blooms for Christmas	1.00
#15	bronze to violet -very good - limited number .....	3.50
#18	two-toned, appears to have red and yellow stripes ...	2.00
#19	very large flame colored, very good .....	2.00
#22	large white, good .....	2.50
#25	very large white, outside petals cream .....	2.50
#27	large yellow-orange, violet heart .....	1.50
#34	free flowering, large Amber .....	1.50
#37	Bridesmaid Pink, medium size, many petals .....	3.50

CUTTINGS FROM ANY OF THE ABOVE PLANTS...1/2 PRICE

SPATHIPHYELUM: These plants are grown as house plants in many localities. It is of the Anthurium family, being hardy, with good green foliage. The flower is shell white, most attractive, lasting for weeks. Used in corsages. Plants are easy to grow, give acid soil. TWO SIZES.....\$2.00 and \$3.00 each.

ZYGO CACTUS: (Xmas Cactus) Blooms at Christmas with many red flowers, an old-fashioned favorite for an east window.....Plants 50¢ ea.

KENTIA PALMS: The ever-popular house palm. Easily grown, adapts itself to house conditions. Do not over-water. Limited number 75¢ ea

BILLBERGIA: Have stiff leaves forming a tube from which the flower panicles appear. A most interesting plant, often called "living vases", as they hold water in the tubular formation. Easy to grow in soil or moss - simply keep water in the tube:

BILLBERGIA NUTANS: a fast grower, blooms at Xmas..... 35¢ ea.

BILLBERGIA NUTANS x ALBERTI: A large grower -deep red green foliage, long flower panicles often measuring 2 to 3 ft. \$1.00 ea.

A few HYBRIDS in very interesting foliage, that bloom several times a year ..... \$1.50 ea.

ANTHURIUM: Many people have seen Anthurium blooms and did not realize they were real. The spathe is 2" wide, 3" long, red in color, lasting for weeks. Foliage is beautiful, leaves reaching 8" in length. TWO SIZES.....\$3.00 and \$4.00 each.

EUCHARIS AMAZONICA: A popular white corsage flower. Does well in glass house or sun porch. Blooms two or three times a year. Plants are grown in a rich compost of steer manure, loam, and sand. Give good drainage and keep damp .....\$2.00 ea.
